Editor and Reviewer comments:

Reviewer #1:

1. The abstract should provide a clearer and more concise overview of the study. It should mention the specific objectives of the research and the main findings. Consider revising the abstract to briefly summarise the study's purpose, methodology, key results, and implications.
2. Provide more details about the qualitative research method used in the study. Explain the procedures followed for data collection, such as the number of interviews conducted, the duration of observations, and the types of documents reviewed. Adding these details will enhance the transparency and reliability of the research.
3. The section on data analysis could be expanded to provide a more thorough explanation of the process. Describe the steps taken for data reduction and presentation, and clarify how the conclusions were drawn from the data. Additionally, provide more information about the triangulation technique employed to ensure the validity of the findings.
4. The four stages of character education management during the COVID-19 pandemic should be discussed more thoroughly. Elaborate on the specific activities during each stage, highlighting their relevance to character development. Consider providing examples or case studies to illustrate the implementation of these stages in practice.
5. In the keywords section, it would be beneficial to include additional relevant keywords that accurately reflect the content of the study. Consider adding terms related to Madrasah Aliyah, education management, online learning, or remote teaching to comprehensively represent the research focus.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Dear

Siswadi et al.

UIN Profesor K.H. Saifuddin Zuhri Purwokerto, Indonesia

Thank you for your team's efforts to improve your team article.

Based on the Reviewers' considerations, the article has, at some point, increased.

However, your team has to improve on a few more points. Hopefully, your team is willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. Provide more context and background information about Madrasah Aliyah Banyumas. Readers may benefit from understanding the institution's significance, role in character education, and specific challenges during the COVID-19 pandemic. This additional context will help situate the study within a broader framework.
2. Consider including a literature review section synthesising existing research on character-building management in educational institutions during crises or pandemics. This will demonstrate the article's contribution to the existing body of knowledge and help readers understand the unique aspects of Madrasah Aliyah Banyumas's approach compared to other institutions.
3. It would be helpful to include more specific examples or case studies to illustrate the implementation of character education management at Madrasah Aliyah Banyumas during the pandemic. These examples can showcase the practical application of the mentioned stages and provide insights into the approach's effectiveness.
4. Clarify the criteria used for the selection of Madrasah Aliyah Ma'arif NU 1 Kemranjen and Madrasah Aliyah Pondok Pesantren Nahdlotut Talamidz Jombor Tambak Banyumas as case study subjects. Explain why these specific institutions were chosen and how they represent the broader context of character education management in Madrasah Aliyah Banyumas.
5. Finally, ensure that the article adheres to the standard guidelines for academic writing, such as proper citation format, consistent use of terminology, and clear organization of ideas. Pay attention to the structure of paragraphs and logical flow of information to enhance the readability and coherence of the article.

Articles that have been revised and please send them back via this email.
