Dear Editor

Journal of Namibian Studies (NAMIBIAN)

We have read and used scientific articles published in NAMIBIAN.

The performance of the NAMIBIAN was excellent, and the published article helped us conduct research and write scientific reports.

I am Siswadi, representing other authors from the UIN Prof. K.H. Saifuddin Zuhri Purwokerto Indonesia.

We have completed a scientific article entitled "**Islamic Humble Leadership in Sustaining Education Quality at Madrasa.**"

We hope this article can be published in the NAMIBIAN because exciting findings in the scientific report can become new treasures in science, especially education sciences.

We are willing to go through the review process following NAMIBIAN standards.

Best Regards,

Siswadi

Thank you for submitting the manuscript to NAMIBIAN.

We have completed our evaluation, and the reviewers recommend reconsidering the manuscript following minor revisions. Please resubmit the revised manuscript by February 21st, 2023, or ask whether an alternate date would be acceptable. We invite you to send it back after addressing the comments below.

When revising the manuscript, consider carefully all issues mentioned in the reviewers' comments: outline every change made in response to their comments and provide suitable explanations for any remarks not addressed. Please also note that the revised submission may need to be re-reviewed.

To submit a revised manuscript, please log in as an author at this email, and navigate to the "Revision" folder. NAMIBIAN values team contribution, and I look forward to receiving the revised manuscript.

Editor and Reviewer comments:

Reviewer #1:

1. The abstract should provide a clear and concise overview of the study. Consider revising the abstract to provide more specific information about the research objectives, methodology, and key findings. This will help readers understand the significance of the study at a glance.
2. It would be beneficial to include more details about the research methodology. Describe the sample size, selection criteria, and data collection instruments used in the study. This will enhance the transparency and replicability of the research.
3. While the use of observation, interviews, and documentation for data collection is mentioned, it would be helpful to elaborate on how these methods were applied. Provide information on the specific procedures followed during observation and interviews, as well as how the data from these sources were analyzed.
4. Consider expanding on the implications and practical applications of the study's findings. How can the concept of humble leadership be effectively implemented in madrasah education? Provide specific recommendations or strategies that educational institutions can adopt based on the research results.
5. It is important to clarify the significance of the study within the existing literature. Include a brief review of relevant previous research on leadership in educational institutions, highlighting any gaps or areas where your study contributes new insights. This will provide context for readers and demonstrate the scholarly value of the research.

I hope you can make improvements as soon as possible and send the revised article again via this email.

Dear

Siswadi et al.

University of Diponegoro, Indonesia. University of Riau, Indonesia

Thank you for the team's efforts to make improvements to the article.

Based on the Reviewers' considerations, the article has, at some point, increased.

However, the team has to improve on a few more points. Hopefully are willing to do it.

Please follow the following revision instructions:

#Reviewer 2:

1. The title of the article effectively captures the main topic of "*Islamic Humble Leadership in Sustaining Education Quality at Madrasa*." However, consider rephrasing it to make it more concise and impactful. For example, "*Enhancing Education Quality at Madrasa through Islamic Humble Leadership*" could be a more succinct and attention-grabbing title.
2. In the abstract, it would be beneficial to include specific examples or case studies that illustrate how humble leadership has been successfully applied in the context of madrasah education. This would add depth to the abstract and make it more engaging for readers.
3. While the keywords "*Islamic*," "*Humble leadership*," and "*Education Quality*" are relevant, it might be helpful to include additional keywords that are specific to madrasah education. This would improve the article's visibility and accessibility to readers searching for research specifically related to madrasahs.
4. Provide more detailed information about the limitations of the study. Acknowledging the constraints and potential biases of the research will strengthen the credibility of the findings and demonstrate a thorough understanding of the study's scope.
5. Consider expanding the discussion section to further explore the practical implications of the study's findings. How can the concept of humble leadership be integrated into the curriculum or leadership development programs in madrasahs? Discussing specific strategies and best practices will provide valuable guidance to educators and administrators in implementing humble leadership principles.

Articles that have been revised and please send them back via this email.
